JustPayments

Genius Countertop POS Buyer sheet

U.S. equipment planning reference • November 18, 2026

For a cashier or server who needs a fixed station for orders, returns, and checkout.

Single- and dual-screen modular configurations have a 15.6-inch merchant display; the separate low-profile configuration has a 10.1-inch screen. Specify the station, stand, wedge or compatible mount, customer screen and payment reader for the quoted model.

Buying question: How much counter space do you have, and does the customer need a separate display?

Confirm exact model, generation, region, enabled software features, mounting, power, network and accessories. Equipment, software, installation and processing are separate topics in a written quote. Photos are examples, not included bundles.
