JustPayments

Genius Self-Ordering Kiosk Buyer sheet

U.S. equipment planning reference • November 18, 2026

For a café or quick-service restaurant where guests wait for a cashier to enter every order.

Guests choose their items, review modifiers and submit an order at the kiosk. Global Payments lists a 22-inch countertop or freestanding option and a 27-inch mountable or dual-sided option. Check the offered enclosure, payment device, accessibility options, and printer.

Buying question: Where can guests place an order without blocking the pickup line?

Confirm exact model, generation, region, enabled software features, mounting, power, network and accessories. Equipment, software, installation and processing are separate topics in a written quote. Photos are examples, not included bundles.
