JustPayments

Genius Digital Menu Boards Buyer sheet

U.S. equipment planning reference • November 18, 2026

For cafés or multi-location restaurants that change prices, seasonal specials or menus by time of day.

Digital signage lets an operator update displayed menus, promotions and pricing. Global Payments describes small-business and enterprise options. Match screen placement, content and update workflow to the deployment.

Buying question: How many screens and locations need updates, and who changes the menu?

Confirm exact model, generation, region, enabled software features, mounting, power, network and accessories. Equipment, software, installation and processing are separate topics in a written quote. Photos are examples, not included bundles.
