JustPayments

KORONA POS
Age-verification ID scanner buyer sheet

U.S. equipment planning reference • November 18, 2026

Give cashiers a dedicated way to scan IDs when selling age-restricted items. Confirm supported IDs and how staff handle an unreadable ID or an exception.

Individual configuration: confirm connections, accessories, mounting or charging, and software requirements separately.

Photo shows a representative configuration, not a confirmed brand, model or revision. Before quoting, confirm exact equipment, compatibility, counter or floor space, networking and supply terms. Bring barcode, label, ticket or ID samples when relevant.
