KORONA POS
Tablet kit buyer sheet

U.S. equipment planning reference • November 18, 2026

Use a mobile tablet at the counter or on the sales floor. KORONA lists a scanner, receipt printer, and cash drawer in the kit. Decide what stays at the counter and how the tablet will charge between shifts.

Included kit components: POS terminal, barcode scanner, receipt printer and cash drawer. These are listed once, not added as extra units. Payment reader selection is separate. An extra peripheral is a deliberate additional selection.

Photo shows a representative configuration, not a confirmed brand, model or revision. Before quoting, confirm exact equipment, compatibility, counter or floor space, networking and supply terms. Bring barcode, label, ticket or ID samples when relevant.
