SQUARE EQUIPMENT / BUYER SHEET

Square Reader for contactless and chip (2nd generation)

Best for — Take taps and chip cards with a compatible phone or tablet.

Payments	Tap, chip and contactless wallets; not a swipe reader.
Connection	Bluetooth pairing to a compatible phone or tablet.
Power	Rechargeable battery with USB-C charging.
Receipts	No built-in printer; check compatible external printing.
Required device	Compatible phone or tablet, Square app and mobile data or Wi-Fi.

Before choosing

Confirm the exact model, compatible devices, installation, internet connection and any external printers or accessories with your team. This sheet is equipment guidance, not a price or availability offer.
